

# **Baseball Field Responsibilities**

## **Coaches/Renter Responsibilities:**

- Hand rake base paths and home plate area after each use
- Put bases in storage unit and plug base peg holes.
- Secure portable mound
- Secure hand rakes and general hand tools in storage unit
- Ensure all trash is put into receptacles.
- Renter must be assigned on the field usage calendar.

## **Field Maintenance (performed by Jerome Township):**

- Normal application of our weed control products. Applications will be scheduled as soon as the weather permits throughout the season and off season. Please be patient as we attempt to work with mother nature.
- Dragging of the field will be preformed as needed depending upon weather conditions. Normally this is done once a week, not daily.
- Grass cutting is a scheduled task that is performed weekly or as needed totally depending on the weather and growth.
- Apply top surfacing to the infield when needed throughout the season.
- Trash receptacles are provided to aid in keeping the ballfield area clean. They are serviced daily.
